Balloon dilation: **\$400**

Capsule endoscopy: **\$1250**

---

## ANESTHESIA AND PATHOLOGY PARTNERS

- Prior to having a procedure at our office, we recommend you contact your insurance company to verify that Mobile Anesthesiologists and Consolidated Pathology Consultants are in-network for your plan. If not, feel free to contact our office and we will assist.

If a combination of procedures is performed on the same day, the less expensive base procedure will be billed at a 50% rate. However, add-on costs will be billed for each procedure at a 100% rate (i.e. if an upper endoscopy is performed with a biopsy and a colonoscopy is performed with a biopsy, the upper endoscopy will be billed at 50% of \$975, the colonoscopy will be billed at 100% of \$1075, and two separate biopsy forceps were used and therefore will be billed at \$100 x 2.)
